DETAILED ACTION

Allowable Subject Matter

Claims 14 – 17 and 19 allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose the use of a method for retrofitting an acoustic keyboard musical instrument including wherein hole forming portions of a second portion of a bottom board is equal in thickness to a first portion (for contacting the rear rail), determining hole forming portions, aligning plungers on the actuators once, and wherein plungers are ready to exert force on the tone generating mechanism. The Applicant persuasively argues that the hole forming step is superior to the slot (as taught in the prior art) for two reasons: First it is easier to create the holes (and thus, retrofit) in an individuals home, and second, it allows the bottom board to maintain structural integrity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
